

MESA

MESA provides a unique combination of enrichment activities, hands-on competitions, counseling, academic support and industry involvement to ensure educationally disadvantaged students succeed in STEM education and careers

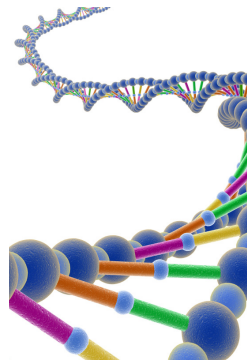

21,207

MESA served 21,207 K-12, community college and 4-year college students in California last year

97%

of MESA community college students transfer to four-year institutions in science, technology, engineering and math (STEM) majors

MESA is readying California's future and diverse STEM workforce. Join us and industry in fulfilling this crucial need.

mesa.ucop.edu

68%

of MESA students go to college after graduation compared to 41% of all California high school grads
